

Fleet Memorandum

Please print and post at your vessel/ facility for all employees to view

Fleet Memo #35: New SMM and Ship Web Pages version 13.10

After many frustrating months of delays and technical problems, the new SMM and Ship Web Pages are finally active on all TDI vessels. There have been many changes to both the web pages and the SMM.

Several new videos and a download for the VLC media player have been added to the Videos and Power Points page. The MSDS page has been updated to reflect the new changes in the Hazcom Program. The main thing to be aware of is a new page for HSE and Toolbox talks. It has over 50 prewritten toolbox talks on various safety topics.

We are evaluating a more efficient way to keep the SMM current as we recognize your frustration with having to go through multiple NOC's to figure out what the current policy is. A few different methods are under discussion with a goal of making SMM management easier for vessel personnel.

Please take some time to look through the web pages and SMM and let us know of any technical issues—broken links, missing pages, etc. so we may get them addressed as soon as possible. Thank you.

Shannon Smith
