

Please print and post at your vessel/ facility for all employees to view

Fleet Memo #38: New SMM and Ship Web Pages version 14.3

The March updates to the Safety Management Manual and the ship web pages are now active on all vessels. The main home page background is now purple to make the change obvious. If you are still seeing the old background color, your page is probably cached. Open the page/ document you want to view and hit F5 on your keyboard to refresh the view to the current version.

New items this time around are the New Employee forms for 2014 and the lifting gear color chart for 2014 have been added to the main menu on the opening page. On the SMM Forms Only page, a new section has been added for Vanuatu specific forms. The Management of Change forms have been updated.

As always, please report any broken links or pages so we can repair them. The next planned update is for June.
