

Please print and post at your vessel/ facility for all employees to view

Fleet Memo #67: Illegal Downloading via Ships Internet

Our Internet Service Provider (ISP) informed TDI Brooks that illegal downloading had occurred onboard our vessels. Over the past few days, we have received Three (3) Notifications from the ISP in a 24 hr period of illegal downloading; these include the following downloads.

- NBC Universal – Jurassic World Dominion
- Paramount Pictures – Top Gun: Maverick
- WarnerMedia – House of the Dragon

The notifications received from each of the Companies include the Date, Time, IP Address of the device, and Name of the download. The IT department is looking further into who this was and how we can mitigate this security breach.

This activity will not be allowed onboard our vessels or violating our Cyber Security SOP. The Internet Service Provider (ISP) can and will **TERMINATE** our service if this continues.

Your action items:

1. Conduct Safety Meeting with all onboard to review this Fleet Memorandum.
2. Re-iterate that the Internet Service Provider (ISP) will **terminate** our service and/or face fines.
3. Record minutes and signatures. Send to DPA once complete.
