Fleet Memo #69: New Vessel Systems Manager (VSM)

TDI offshore family,

As many of you know, I have been working remotely part-time as Vessel Systems Manager for the past several months while I transition back into the healthcare field and move to be closer to family.

I am very happy to introduce Kellen McKinney as the new Vessel Systems Manager!

Kellen McKinney
Vessel Systems Manager

KellenMcKinney@tdi-bi.com
(979) 220-5811

Kellen has a maritime background and extensive experience in emergency management. She completed her master of Emergency Management in 2011. Her favorite port of call is Nukualofa, Tonga. She has worked offshore and understands the challenges you face in working with multiple systems when the internet is unreliable.

As the new VSM, she manages the MTS training, Helm Maintenance, and TDI Binder systems. **So, contact Kellen if you have any difficulty with logins, new users, updates, or tasks in any of these systems.**

It has been my pleasure to be part of the TDI family for these last 16 years, and I know I am leaving you in excellent hands.

Fair winds and following seas,

Shannon Smith
(Former) Vessel System Manager
TDI-Brooks International, Inc.
